# Yogesh Aithani

## B.Tech Student

As a B.Tech graduate with a strong passion for frontend development, I am enthusiastic about applying my analytical and programming skills to excel in dynamic environments. Committed to continuous learning and skill enhancement, I am currently thriving as a React Frontend Developer.

## EDUCATION

### Bachelor of technology - ECE
Guru Tegh Bahadur Institute of Technology

*08/2017 - 08/2021*

## PROFESSIONAL EXPERIENCE

### Web Developer
MPHASIS LIMITED

*02/2022 - 05/2023*

*Achievements/Tasks*

- Develop user interfaces using React.js and its ecosystem.
- Collaborate with design teams to implement responsive and visually appealing web applications
- Implement state management using tools like Redux for complex applications.
- Collaborate with backend developers to integrate frontend components with server-side logic.
- Write reusable and efficient code, ensuring the best performance and scalability of applications.

### Chegg Subject Expert in Advanced Physics
CHEGG, DELHI

*10/2020 - 06/2021*

*Achievements/Tasks*

- Served as a Chegg subject expert, offering specialized knowledge in advanced physics.
- Provided valuable assistance to students, aiding in the comprehension of intricate concepts and problem-solving.
- Played a key role in facilitating a better understanding of advanced physics topics through expert guidance on the Chegg platform.

### IIPC GTBIT
INHOUSE TRAINING

*04/2020 - 07/2020*

*Achievements/Tasks*

- Successfully executed a project centered on field-programmable gate arrays (FPGAs), employing Verilog for implementation.
- Actively participated in digital system design, utilizing both VHDL and VERILOG languages to enhance proficiency in creating robust digital systems.
- Demonstrated expertise in FPGA-based projects and contributed to digital system design, showcasing versatility in utilizing VHDL and VERILOG for effective implementation.

## SKILLS

React  JavaScript  Redux  Java

HTML  CSS  UNIX  TailwindCSS

cloud fundamentals  SQL

Networking concepts

## PROJECTS

Food Delivery Web App
- Created a dynamic food delivery application using React, Tailwind and Parcel, seamlessly integrating live Swiggy APIs. This project showcases my proficiency in web development, API integration, and user interface design.

Video Streaming Web App
- Developed a robust web application for video streaming, leveraging the live API of YouTube. Implemented cutting-edge features, including a dynamic search list suggestion with debouncing to optimize user experience

## CERTIFICATES

Talent Next: DevOps Essentials

SQL certification
